Summer College at Caldwell (SCAC) is a program designed for high school seniors (class of 2014) that provides the opportunity to earn three college credits while studying science, medicine and math. This unique opportunity also incorporates SAT test taking strategies, academic field trips, and a taste of the college experience, with students meeting new friends while living on the Caldwell College campus. The program includes room and board, books, supplies and field trips.

There is limited space in the program, so apply and learn more about eligibility requirements visit caldwell.edu/scac.
