Verona Students Participate in National Mathematics Competition

44 students at Verona High School participated in the 64th annual American Mathematics Contest 12, and the 14th annual American Mathematics Contest 10. The contests were held on Tuesday, February 5, 2013. The students competed for local, regional and national student and school awards. The contest, which covers high school mathematics, is given in participating schools. Its purpose is to spur interest in mathematics and develop talent through the excitement of friendly competition at problem solving in a timed format.
