<u>SAVE THE DATES!!</u>

Student Organization Skills Workshops for Middle School Parents

Middle School Auditorium

Where's my homework? I ***know*** I did it!

The project is due ***tomorrow?***

I don't have my gym clothes...***again***!

If any of this sounds familiar, come meet with Diane Thomson, MS, a Professional Organizer who specializes in helping parents help their students manage the demands of student life. Diane will help you understand the challenges your students face and present best practices for helping him/her learn how to:

- ✓ Maintain school materials, particularly a *traveling paper system*
- ✓ Keep track of assignments
- ✓ Plan time effectively

To be successful, one does not need to possess that mythological 'organizing gene', however it does require a commitment from parents and students to develop a system and follow through on routines designed to maintain it.

October 10, 2013 - 7 to 9pm

Introduction to Student Organization: Creating Systems & Routines

January 16, 2014 – 7 to 9pm

Review, Readjust and Reinforce the Habit of Maintenance

(students welcome to join parents)
