A Night Under the Stars

Astronomy for Kids

at the Verona Public Library

Tuesday, February 18, 2014
6:30 pm

Mary Lou West (retired Montclair State University professor) and Laura Kelm of The North Jersey Astronomical Group will offer a hands-on program to introduce kids to the wonders of the night sky.

A presentation in the Library will be followed by actual telescope observation outside (dress warmly for the weather!). This is a family-friendly event geared toward young adults, but all are welcome!
