U8 Soccer Academy

The U8 Academy is designed to provide the highest quality development program to help players achieve their potential and to learn to love the game. The program is based on three pillars of growth: individual ball mastery, becoming an athlete, and developing a passion for the game. Our unique program, the only one of its kind in the area, is designed to help all of our players achieve their potential. Our size allows us to focus on developing players to his or her potential on their own development path.

BALL MASTERY

Training curriculum focused on individual technique.

- Two technical training sessions per week taught by Red Bull trainers.
- Featuring a heavy emphasis on individual ball mastery, allowing each player to become more comfortable, confident and creative with their foot skills, while nurturing their passion and enjoyment for soccer
- Low trainer to player ratio to enhance instruction.

BECOMING AN ATHLETE

Agility and running technique is a critical and typically overlooked development area for our young athletes. We have a unique focus on incorporating age appropriate agility and running technique into the program.

- Dedicated speed and agility sessions taught by a trained professional.
- Focus on enhancing coordination, balance and learning proper technique.

PASSION FOR THE GAME

Allowing our players to explore the game at U8 is critical to their development.

- Intra-academy games focused on high touches.
- Participation in KATS league to allow the players to play in a different environment.
- The academy will dress up and play in a Halloween soccer tournament. The academy will have a tailgate and a fun day of soccer to capstone their fall season.

For more information attend tryouts on Friday May 30 at 4:30pm on Linn Drive.
Food and refreshments will be provided by the club.
If you can't make tryouts, call Larry Raff, U8 Coordinator, (973) 239-0556.
