Verona Public Schools Mission Statement

“The mission of the Verona Public Schools, the center of **an engaged and supportive community**, is to **empower students to achieve their potential** as **active learners and productive citizens** through **rigorous curricula and meaningful, enriching experiences.**”

Two Quotes

- “Students (and teachers) must have the same **criteria and standards** for their work as the master; they must have **feedback** from the master; they must **revise** their work; they must **use the feedback** to improve their work; and they must **evaluate** their work against the standards. This model-
feedback-revision cycle is the key to deliberate practice.”

~ Wiggins

“**Deliberate practice** is focused on a specific skill or task, teachers can engage in deliberate practice by observing a student practice the selected strategy and providing feedback with small variations to determine what works best for this or her particular situation.”

~ Marzano

- How can the “elements” in the Design Questions make our teaching more effective?
- DQ #5 Engaging the Students: Using Physical Movement
- It’s all about the EVIDENCE – teacher and student.

DQ5: Engaging the Students

27. Using Physical Movement

The teacher uses physical movement to maintain student engagement.

Teacher Evidence

- Teacher has students stand up and stretch or related activities when their energy is low
- Teacher uses activities that require students to physically move to respond to questions
- Vote with your feet
- Go to the part of the room that represents the answer you agree with
- Teacher has students physically act out or model content to increase energy and engagement
- Teacher use give-one-get-one activities that require students to move about the room

DQ5: Engaging the Students

Student Evidence

- Students engage in the physical activities designed by the teacher
- When asked, students can explain how the physical movement keeps their

The teacher gets 100% of students to the desired effect of the strategy by adapting/creating new strategies for unique student needs and situations	The teacher uses the strategy correctly, and monitors the majority of students to determine if the strategy has the desired effect.	The teacher uses the strategy correctly.	The teacher uses the strategy incorrectly or with parts missing.	The strategy was called for but not exhibited.

Observations #1 & #2 for 2013-14

- Observations are announced
- Teacher completes pre-observation form in iObservation by identifying 5 to 7 elements from DQ 1 - 5 for the observer
- Formal observation occurs (Long/Short)
- Teacher completes reflection form in iObservation
- Teacher meets with observer for instructional feedback

The screenshot shows a web browser window with the URL <https://www.effectiveeducators.com/conferenceResponse/edit/520ad62ae4b09868d5e33665>. The page title is "Enacted on the Spot". The form contains two text input fields. The first field is labeled "What will you do to engage students in the lesson?" and the second is labeled "What will you do to recognize and acknowledge lack of adherence to classroom rules and procedures?". Below each field is an "Attachments:" section with a "Choose File" button, "No file chosen" text, and "Clear" and "Add Attachment" links. A red oval highlights the first text input field. The browser's taskbar at the bottom shows two open windows titled "Art and Science of T....htm".

Verona Observation: Reflection Post-Conference Form

Overall, how do you think the lesson went and why?

Routine Events

In what ways did students meet or not meet the learning goals you established for this lesson? How did your assessments inform your understanding of student learning?

To what extent did the organization of your classroom (room arrangement, materials) and your rules and procedures maximize student learning?

Content

How did the strategies you used to introduce new content to students support student learning?

Observation #3 for 2013-14

- No pre-conference prior to the formal observation (*Teacher does not complete pre-observation form in iObservation*)
- Observation is unannounced & short
- Teacher completes reflection form in iObservation
- Teacher meets with observer for instructional feedback

Summative Evaluation

© Randy Glasbergen / glasbergen.com

“Today’s test is 70% of your final grade which makes up 35% of your grade for the semester and 20% of your GPA for 50% of your scholastic career for 15% of the curriculum. If you can explain this to the person next you, you pass the test.”
