Information on the methods used by Newsweek:

This year our ranking highlights the best 2,000 public high schools in the nation—those that have proven to be the most effective in turning out college-ready grads. The list is based on six components: graduation rate (25 percent), college acceptance rate (25 percent), AP/IB/AICE tests taken per student (25 percent), average SAT/ACT scores (10 percent), average AP/IB/AICE scores (10 percent), and percent of students enrolled in at least one AP/IB/AICE course (5 percent).

* Open enrollment refers to traditional high schools that do not have an application process for entry as opposed to selective enrollment and magnet schools.
