

# Summer Enrichment STEM Opportunity for Middle School Students 2024

## MIDDLE SCHOOL STEM CLASS

Students will learn about scientific and engineering concepts and principles in a fun, engaging and hands-on environment! As part of the engineering design process that working engineers follow, the students will create design models that reflect products and procedures in engineering. They will develop inquiry and problem-solving skills while working collaboratively on activities and engineering design challenges that go beyond what students learn during the school year! All fun, no homework! **New projects are offered each summer so there's something for both new and repeat students.** Middle school STEM class is for students entering 6th, 7th, and 8th grades in Sept. 2024. Class will meet for 3 hours per day from 8:40-11:40 am. Fee: \$415. Parents may enroll children for up to 10 days at a reduced rate of \$207.50. If a child attends 11+ days, the full tuition will be charged. For enrollment of 9 days or less, the two-week tuition is charged.

**ALL MIDDLE SCHOOL CLASSES WILL TAKE PLACE AT FN BROWN**
