### **Verona Public Schools Mission Statement:**

The mission of the Verona Public Schools, the center of an engaged and supportive community, is to empower students to achieve their potential as active learners and productive citizens through rigorous curricula and meaningful, enriching experiences.

### **Course Description:**

Students who begin study of a World Language at the elementary level develop a basic foundation of the skills necessary to achieve further success in second language acquisition. Students are asked to demonstrate all four components of language: listening, speaking, reading, and writing in order to be able to communicate in an effective manner. The use of pictures, songs, acting, role plays, and cultural activities and projects help students internalize and communicate in the language. Each year builds upon the year before with expansion of the topics. A natural approach to second language acquisition is utilized at each level. First and second grade focus more on listening and comprehension whereas third and fourth grade take it to the level of application in communication with others. Topics include but are not limited to greetings, numbers, colors, family, body parts, calendar, classroom objects, animals and weather.

## Prerequisite(s):

None

Standard 8: Technology Standards				
8.1: Educational Technology: All students will use digital tools to access, manage,	8.2: Technology Education, Engineering, Design, and Computational Thinking -			
evaluate, and synthesize information in order to solve problems individually and collaborate	Programming: All students will develop an understanding of the nature and impact of technology,			
and to create and communicate knowledge.	engineering, technological design, computational thinking and the designed world as they relate to the
