

County College of Morris Challenger Program Information Session

*...for high school students
and parents*

Thursday, May 12

7 – 8 p.m.

**Davidson Conference Room A
Student Community Center**

Parking Lots 6 and 7

Learn about the **Challenger Program** at CCM and the opportunity it provides high school students to enrich their education through college-level courses. Benefits include not only expanding one's education but also experiencing the college environment, strengthening candidacy for college admissions, and possibly fulfilling high school graduation requirements. Completed courses also can be applied toward college degrees.

If you are unable to attend, program information can be found on the college's website at www.ccm.edu. Click on the Admissions tab and then the **Challenger Student** button. If you have any questions, please contact Kenneth Albiston, LCSW, at 973-328-5102.
