

Wednesday, October 4th

Walk or bike to support healthier habits, a cleaner environment, and pedestrian & bicyclist safety in our community.

When walking or biking people get to appreciate things they don't notice while driving. Learn safe walking and bicycling skills. Drivers, please watch for others using the road and slow down. The rules of the road, be kind to one another!

Verona will celebrate the occasion with a Poster Contest open to Public School Students Grade K through 12

All students' artwork will be displayed at school

This year, the poster contest theme is:

How can we stop Climate Change in Verona?

Create a poster, write your name/grade on the back and bring it to school by Oct. 4th

You could win \$50!

For example, swapping out your light bulbs would reduce CO₂ emissions by less than 0.2 tons per year, but living car free reduces your CO₂ emissions by more than 3 tons per year! The average American uses about 18 tons of CO₂ per year, while the average person on the planet uses about 4 tons!
