

# Verona Launches Online Video Based Community Map!

Verona has launched a Video Community Map using Vidoovy to help promote local businesses and keep people shopping and living local. The Township of Verona along with the Sustainable Verona team are happy to announce the launch of a new video based community map on their website [www.VeronaNJ.org](http://www.VeronaNJ.org).

The button above can be found on the left side of the [www.veronanj.org](http://www.veronanj.org) homepage, which will bring you to the community map.

The map currently highlights ten different township departments and amenities. The goal is to get as many Verona businesses as possible to sign up for the [Vidoovy](http://Vidoovy) program so they can be added to the map. This program strives to keep people living local and supporting local businesses. Currently there are three other towns who have adopted the program as well, West Orange, Montclair and Bloomfield. If you are a Verona business looking for information on the map please visit [www.Vidoovy.com](http://www.Vidoovy.com) or call Vidoovy at 201-293-7330. If you are interested in Verona's Sustainability Program and joining the [Sustainable Verona](http://Sustainable Verona) team please contact Steven Neale at [stneale@veronanj.org](mailto:stneale@veronanj.org).
