

VERONA PARK SPRING CLEAN-UP

Saturday, April 14th, 9am-11am

Volunteers Needed!

The Environmental Commission joined the Verona Park Conservancy to clean up the park and the lake! Once an old swamp, the lake was first formed in 1814 when Doctor Gone (or Bohn) dammed the Peckman River for a grist mill.

Please join us! We'll meet near the boathouse.

All ages and abilities welcomed. Children must be supervised by a responsible adult. Essex County Park waivers must be signed at the event, also available at veronaec.org. The Passaic Valley Sewerage Commission and New Jersey Clean Communities Council are donating gloves and trash bags. We'll have grabber tools, long handled nets and a rowboat. Please bring your own water, and a fan rake or other tool you may have to help remove litter from the shore line.

To register please contact us at veronaenvironmental@gmail.com
Walk-ins are welcome. Thank you!
