

## Depth of Field Assignment

# Zone of SHARPNESS

Working in groups of 3...You will repeat the shoot THREE times so everyone has shot it! (MrA joke)

Set the zoom to 30mm

ISO is on automatic

Set your camera to aperture (f-stop) priority. (AV = aperture priority)

This is a 'ZOS' exercise, shoot horizontally. Shoot the person!

On the front lawn...measure 2 'string's length' away from the VHS sign and have someone stand facing you. Focus on the person. NOW...either hold down the shutter  $\frac{1}{2}$  way to lock the focus & hold it down OR switch OFF the auto focus. The sign is in the background.

Next have someone stand 1 string's length behind the first person.

You are now going to take 3 horizontal photos:

Photo 1 @ f11

Photo 2 @ f5.6

Photo 3 @ 4.5

Let the camera set the shutter speed.

Make sure you can see the lawn sign in all 3 photos.

Contact sheet the 3 photos, make a printed copy & send in for credit.
